

Being a Committee Member

All our Committee Members volunteer their time to assist with the running of the club and we are currently looking to fill various vacancies on the committee. For those who are unsure as to what is involved in being a committee member, Heather Jones (our Bar Chairman) has kindly provided us with her input of being a committee member.

I originally joined the committee back in the 90's and was asked to re-join the committee back in 2013. Having already had experience as an Ex President, and Entertainments Chairman, I felt that I had a vast range of experience and skills that I could bring to the committee /club and came back on board and I was then voted back to "Entertainments Chairman" and now in my current role as Bar Chairman.

Being on the committee is not just about sitting around a table assisting with making decisions on the running of the club but also as Entertainments Chairman I hold regular meetings with 7 other members who are on the Entertainments Committee, where we discuss forthcoming events that have been booked and look at what type of events our members would like to attend. I ensure that various artists / DJs are booked to entertain either in the hall or the members bar and organise the raffle draws as well as arrange other entertainment nights such as PRIZE Bingo, Race Nights, Hoy Bingo and Skittle matches.

With my team we also organise various themed nights that include our New Year's Eve party and other party nights such as "Cocktail Nights". The team also assist with putting up decorations for our "themed" event night and provide a wealth of ideas of how we can make the night go with a BANG!

We also help each other with clearing up and taking down decorations after an event and with my husband Mick

(who is also a committee member) I assist with setting up the hall for various functions such as Art Club, Bingo sessions and the regular meetings that are held by Men's and Women's PROBUS and The Lions Club meetings. Not only am I lucky that Mick and I support each other but I also have a fantastic team on the Entertainments Committee who also support what we do. Being semi-retired does allow me to give my time and there are many members on the committee that do work full time and still are able to assist.

I have made many friends at the club and being part of the committee is very rewarding and enjoyable and I would encourage anyone who wishes to stand on the committee at the next AGM to come forward or if you have any questions about being a committee member please feel free to talk to one of the committee members.

Heather Jones
Bar Chairman
